Conversation Activity Files

Hello JARVIS, what can you do?

I can work across your terminal, files, browser and APIs. What are you working on today?

Hello JARVIS. Please say this aloud.

Thought · 1.2s Spoke · Piper

There — I just said it. The audio should be playing through your default voice provider. Want me to say something else or switch voices?

01 · 03 — FACE & VOICE STATES

One face, four moods

Color says what JARVIS is doing, motion says how hard it's working, the glyph in the core is its expression.

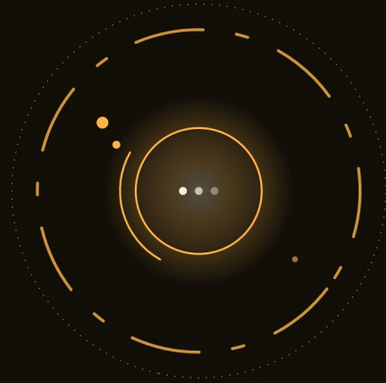

STANDING BY

Color	Dim cyan, 50% rings
Motion	Slow 6s breath
Expression	Calm line
Trigger	No input for 10s

LISTENING

Color	Full cyan, rings 100%
Motion	Tick ring follows mic level
Expression	Two open "eyes"
Trigger	Wake word / hold Space

THINKING

Color	Amber — work in progress
Motion	Orbiting dots, one per tool
Expression	Three-dot ellipsis
Trigger	Model or tool running

SPEAKING

Color	Bright ice-cyan
Motion	Radial bars driven by TTS audio
Expression	Live waveform
Trigger	Piper audio playing
